

PRODUCT INFORMATION SHEET

Cable Detector

Product description

Professional RJ45 internet and RJ11 telephone cable detector. Used to check the correct order of crimping (pairing) of connectors and to search for cables e.g. in a server rack. Searching can be carried out directly after connecting to low-current equipment, such as an Ethernet switch or router of any model and by induction, by bringing the detector close to the cable.

Charakteristics

- NCV allows the inductive detection and testing of cable continuity at voltages above 45 V;
- no insulation stripping is required when searching for cables;
- testing the telephone cable allows you to check the status of the line – free, busy, ringing;
- built-in flashlight enables work at night and in the dark;
- headphones connection, buzzer volume control;
- included: headphones, RJ45 18 cm / RJ11 cable with alligator clips;
- power supply 2x 9 V 6F22.
