

Coil spring clamp 305mm, 2pcs

Opis Produktu

Spring pullers are indispensable in the professional service of the chassis. Suitable for all types of springs in McPherson struts and independent springs. Pullers work with a 1/2 "ratchet. They have a fine thread, which makes it easier to work under spring load. The work is safe due to specially profiled, two-armed handles.

Charakterystyka

- designed for workshops and services
- for dismantling suspension springs
- profiled handles
- forged
- trapezoidal threaded screw
- propeller size 24 mm
- operating range 305 mm.
