

PRODUCT INFORMATION SHEET

Non-woven disc

Product description

The disc is designed for grinding and deburring ordinary and stainless steel, as well as stone, wood or plastic. It enables the removal of paint coatings, rust from the treated surface, cleaning of welds as well as grinding of sharp edges and burrs. Designed to work with angle grinders. Mainly used in industry, crafts and construction. Dedicated for professional use.

Characteristics

- increased abrasive surface guarantees a significant extension of the disc's service life;
- made of high-quality, efficient non-woven fabric;
- disc diameter 125 mm;
- the thickness of the non-woven fabric increased to 14 mm, which makes it much more durable and efficient;
- mounting for an angle grinder 22.2 mm;
- maximum rotational speed of 80 m / s;
- maximum speed 12 250 RPM;
- effective heat dissipation prevents the disc from overheating;
- removing dust through numerous channels prevents clogging of the disc, positively influencing its service life.
