

PRODUCT INFORMATION SHEET

Tripod for laser levels

Product description

A tripod for levels makes it much easier to carry out measurements with laser levels. The use of a tripod additionally guarantees the highest precision of measurement and the elimination of errors during renovation and construction, finishing, assembly or installation works. It can be used both indoors and outdoors.

Characteristics

- made of light and at the same time durable aluminium;
- adjustable height from 35 to 105 cm;
- 1/4" connection thread;
- a built-in level allows for precise positioning of the tripod;
- compact size after folding and low weight ensure easy storage and transport.
