

KARTA PRODUKTOWA

PLONER protective helmet yellow uni

Opis Produktu

The protective helmet made of ABS plastic has ventilation holes, holes for attaching earmuffs. In addition, the side handles are used to attach additional face, eye and hearing protection. The shell retains impact resistance at low temperatures, has high hardness and scratch resistance. The 6-point truss, made of very durable polyester tapes, does not chafe as in the case of plastic trusses. Adjustable with a knob on the back of the helmet, made of nylon, ensures a perfect fit for any head size. Equipped with a 4 punk chin strap. It is ideal for conditions that require effective protection, excellent ventilation and maximum field of view. Made in accordance with EN 397. Designed for professional use.
