

PRODUCT INFORMATION SHEET

Two-arm tripod for floodlights

Product description

The robust tripod is made of carbon steel. It provides stable access to light and lighting from a selected height, increasing work efficiency. Two arms allow single or two floodlights to be mounted together. The tripod can be successfully used on uneven surfaces or wherever holding the floodlight would be difficult or dangerous.

Characteristics

Min/max height of the tripod - 59/137 cm;

Weight - 2.05 kg;

Material – CS.
