

PRODUCT INFORMATION SHEET

Ceramic saw blade with diamond coating 60 mm

Product description

The blade is designed to be fitted to a multitool, such as the HT2E230-0MT. It can be used for cutting building materials such as ceramic tiles, etc. The cutting edge is coated with high-quality HM/TCT tungsten carbide, allowing for efficient cutting and ensuring tool durability. The blade material provides flexibility and resistance to damage. The universal attachment of the working tip fits most multitools on the market.

Characteristics

- intended for: cutting of building materials such as ceramic tiles, etc;
- blade width - 60 mm;
- material - steel with diamond coating.
