

PRODUCT INFORMATION SHEET

Semi-circular ceramic disc, carbide coating 65 mm

Product description

The bade is designed to be fitted to a multitool, such as the HT2E230-0MT. It can be used for cutting stoneware and ceramic tiles. The high-grade HM/TCT tungsten coating allows for efficient cutting and ensures tool durability. The blade material provides flexibility and resistance to damage. The wide, semi-circular blade allows for plunge and rip cutting with a single application. The universal attachment of the working tip fits most multitools on the market.

Characteristics

- intended for: cutting of building materials such as concrete, ceramic tiles, etc.
- blade width - 78 mm;
- material - steel with HM tungsten carbide layer.
