

## PRODUCT INFORMATION SHEET

### Wrench set, 47pcs.

#### Product description

A set of 47 double-ended combination spanners. Some of the spanners, thanks to their special C-shaped profile, allow for loosening bolts in hard-to-reach areas, such as near starters, manifolds, and alternators. Versatile, equipped with two types of ends; closed and open in the same size, they are used for loosening and tightening bolts and nuts with hexagonal heads. The closed ends have 12-point heads, making it easy to fit them onto hexagonal bolt and nut heads.

Manufactured in accordance with the European standard DIN 3113.

They feature a satin finish, which prevents hand slippage and ensures a secure grip.

Made from high-quality chrome-vanadium alloy steel, resistant to cracking, deformation, and corrosion. They are lightweight while being highly resistant to mechanical damage.

Produced in accordance with European standard DIN 3113.

A flexible, roll-up fabric case makes them easy to store in small spaces.

#### Characteristics

The set consists of:

- 24 pcs combination spanners size: 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 26, 27, 28, 30, 32 mm.
- 8 pcs offset Ring spanners size 6x7, 8x9, 10x11, 12x13, 14x15, 16x17, 18x19, 20x22 mm.
- 6 pcs Flare Nut spanners size 8x10, 9x11, 10x12, 13x14, 15x17, 16x18 mm.
- 5 pcs C type Ring spanners 10x11, 12x13, 14x15, 16x17, 18x19 mm.
- 4 pcs Torx spanners size E6xE8, E10xE12, E14xE18, E20xE24 mm.
